

# WATERCREST

SENIOR LIVING

welcomes you to:

## WATERCREST SHARES

*If it's important to you, it matters to us!*

## TECHNOLOGY ENHANCEMENTS

Sagely allows our programming professionals to gain a deeper understanding of our residents, and how to best engage them on their journey to well-being.

Utilizing digital displays, family communication, and program-related tools, Sagely offers data to measure and improve program delivery, strengthening family engagement and improving the quality of life for residents.

### The Sagely Story

In 2015, The Sagely Team set out on a mission to help Elders to stay happy, healthy, independent and connected. In Hawaii, where Sagely was founded, elders have been held as sources of wisdom, guidance, and inspiration for generations. The Sagely Team wanted to find a way to help bring these ideals into the modern world through collaborative technology. After meeting with community and company leadership at several senior living organizations it became clear that Team Sagely would focus on creating a tool for engagement leaders. This is how the Sagely platform that now reaches over 46,000 residents, 15,000 families, and 500 communities came to pass.
